Replacing the battery in your remote control unit.

The battery required for your remote control unit is a CR2032 button battery.

**Step 1**
Carefully remove the button battery from the remote unit. (Please safely dispose of the used button/coin battery immediately)

**Step 2**
Place the battery carefully under the metal holding clip as shown.

**Step 3**
Push gently down on the battery until it clips into place.

**Step 4**
Reassemble your remote control unit.

**EXAMPLE OF BATTERY INSTALLED INCORRECTLY:**
Example of the battery installed incorrectly. The battery has been pushed into place, crushing the metal holding clips under it.

**WARNING**
Contains button or coin cell battery. Hazardous if swallowed. The battery is hazardous and is to be kept away from children (whether the battery is new or used). The battery can cause severe or fatal injuries in 2 hours or less. If it is swallowed or placed inside any part of the body, medical attention should be sought immediately if it is suspected the battery has been swallowed or placed inside any part of the body. If it is suspected a button/coin battery has been swallowed or otherwise placed inside any part of the body, a person should contact the Australian Poison Information Centre on 13 11 26 immediately for 24/7 fast expert advice. Dispose of used button/coin batteries immediately.
